Subject: Radiation Safety Auditor Qualifications

Dear Radiation Physics Consultants Client,

This letter is in reference to the Radiation Safety Auditor qualification requirements set forth by Radiation Physics Consultants, Inc. The topics of verified training include, but are not limited to the following areas:

- State & Federal regulations
- Fundamentals of radiation safety
- Quality Assurance programs
- Audits of the Quality Assurance programs
 - Repeat/Reject Analysis
 - CR, DR, CT, DEXA, Dental, Stereotactic Mammo QC
 - Utilization logs
 - Equipment performance testing
 - Lead Protection testing
- Proper use of personal dosimetry
- Shielding plan requirements
- Personnel documentation and training requirements
- Recordkeeping requirements

It has been determined that Ruth McCotter, employed with Radiation Physics Consultants, Inc., has met the above training requirements.

Therefore, I attest that Ruth McCotter has achieved a level of radiation safety knowledge sufficient to function independently as a Radiation Safety Auditor for facilities contracted with Radiation Physics Consultants, Inc.

I am a Radiation Safety Officer for: Essentia Health #1048
Name of Facility License Number

Sincerely,

David J. Eastman, M.E.H.S.
